Samples of anomaly objects

- **SCP-167** - An endless maze. Is a cube created from an unidentified shiny white-plastic polymer. Affixed to one of the faces of the cube is a large metal door. Inside the cube two of the remaining three walls each have doorways in them. These doorways lead directly to identical rooms, each with two more doorways leading to more identical rooms. This pattern continues repeats.
- **SCP-173** - A sculpture constructed from concrete and rebar with traces spray paint. Object animate and extremely hostile, but cannot move while within a direct line of sight.

Please note: many people know what SCP-173 looks like. But for this game we create a different visual style for this object.

What is SCP Foundation?

The SCP Foundation is a fictitious organization that contains and explores abnormal objects. The mission of the Foundation is to protect humanity.

Organization and object created by community of wiki project **SCP Foundation**. Currently wiki translated to 11 languages, and contain branch **nn5n Foundation**.
